Senior Full Stack Engineer (Remote)

Are you looking for a career that makes an impact?

Do you want to work for an up-and-coming tech company?

Are you an intrinsically motivated individual with a passion to solve complex problems?

Do you like working in a fast paced environment?

How about working with an all remote team?

If you answered yes to all these then you might be a great fit for Viral Launch!

Viral Launch is actively searching for a **Full Stack Engineer**. Viral Launch is the go-to software and services platform helping brands source, launch, and dominate on the Amazon marketplace. Our continuing mission is to equip those entrepreneurs with the insight, tools, and partnerships needed for lasting success. At Viral Launch we strive to help build and establish our clients' brands as the most successful and powerful brands on Amazon through data-driven decisions and sophisticated and scalable execution.

The Full Stack Engineer position is a full-time, remote position, person needs to be based in the US.

About Us

Viral Launch delivers an industry leading suite of tools that help entrepreneurs become successful in the Amazon space. We cater to anyone from beginners to experienced 1M+ sellers. The engineering team follows a Kanban Methodology style catering to speciality and areas of ownership.

Viral Launch is a SaaS company wholly-owned by Worldeye Technologies, Inc. with headquarters in Reston, VA.

What You'll Do

The role will be responsible for delivering highly scalable and quality software solutions revolving around the Amazon Space. The perfect candidate for this position is a self starter individual, who loves a fast-paced environment and creating solutions to complex issues. The role will require both front end and back end development, along with management of some Azure and AWS services.

What You Offer

We have certain requirements that you must meet to qualify for this position:

- Love writing code
- 5+ years of development experience including:
    - C# (at least three years)
    - Javascript (at least two years)
    - 3+ years of experience with .Net technologies
    - Experience with frontend frameworks (Vue, Angular, React, etc)
    - Experience consuming or writing RESTful APIs
- Basic competency in Azure and/or AWS
- Prefer and are able to deliver solutions under little guidance
- Enjoys a nimble environment and owning their creations

Candidates with the following qualifications will be in a particularly strong position:

- Vue.js
- Microservices
- NoSQL databases and cache
- Experience with Amazon APIs, especially Selling Partner API and Amazon Ads API

Our Stack

This is the stack you will be working with:

- Vue
- Node.JS
- PHP
- .Net Core
- C#
- SQL & NoSql
- Azure & AWS

What We Offer

We offer a highly competitive salary package, Health insurance (Medical, Dental, Vision) Unlimited PTO (that we actually want you to use!), Paid Sick Leave, Paid Holidays, 401k, Training/Education, remote options available and a distributed workforce.

Viral Launch is committed to fair and equitable compensation practices.

As required by C.R.S.

8-5-201(2): (Colorado only) The minimum pay for this role is Base - $85 - $120. Actual compensation packages are based on a wide array of factors unique to each candidate, including but not limited to skill set, years & depth of experience, certifications and specific office location. This may differ in other locations due to cost of labor considerations. The total compensation package for this position may also include annual performance bonus, stock and benefits.

Additional Information

Equal Opportunity Statement
